THE #1 BEST ONLINE BUSINESS MODEL TO START IN 2024

NEVER DEAL WITH AN MLM, BITCOIN SCHEME, SHOPIFY, AMAZON, OR PITCHING LOTIONS, POTIONS, OR PILLS AGAIN!

Hey, Dave Sharpe here!

Do you want to know the #1 Best Online Business Model To Start In 2024?

If so, you're in the right place.

Real quick: Six years ago I set out on a mission to help as many people as possible and finally learn how to gain back their time and break away from feeling stuck.

Time with friends.

Time with family.

Time to spend your days and weekends however you wanted WITH whoever you wanted.

All without trading time for an hourly wage that barely gets you by.

That is when Legendary Marketer was born and since then we have taught over 159k members how to LEARN and START this PROVEN business model, even if they have zero tech or business experience.

I'm so happy you're here... it means you're hungry for something DIFFERENT in life.

You may be tired of your 9-5, tired of working overtime just to barely pay the bills, you are tired of losing precious time with your loved ones, you are tired of never having time off, or a decent vacation.

You are open to learning.

You are open to making a real change in your life.

You are open to taking real action to change the path you are on.

By the time you finish reading this, you will know the #1 model to learn and launch in 2023.

WHY IS IT SO EXTRAORDINARY?

Because it's the only thing that I found in 12+ years of making money online that works extremely well for ordinary people

You might assume that in order to create an online business you first need to...

- Have your own products to sell
- 100s of thousands of \$\$\$\$\$\$ in capital
- Years of development and education
- Sourcing products from china
- Quit your current 9-5 just have time to start

The truth is NONE of what I mentioned above is true and if you believe the above, you will stay STUCK.

How am I so sure?

Let me share a bit about myself...

I joined, admittedly, hundreds of different so-called businesses, I tried to sell everything from coins to makeup, to face creams and cell phones.

I marketed credit repair, weight loss, lotions, potions, and pills.

And that was just the beginning...

I then came online, and I got sucked into hundreds of different sales funnels.

I opted into 1000s of different email lists.

It felt like I was getting on a different webinar, or conference call almost every day to hopefully find the one I would join a new business, I'd quickly log into my back office, I'd grab my link, I'd spam it everywhere on Facebook and Twitter

I'd send emails in text messages, letting everyone know, I'd finally found the one, only to get back crickets and tumbleweeds, the pain of wasted time and money.

Sound familiar?

One of my darkest and most embarrassing moments was taking some numismatic coins I got from one of my many failed MLM businesses down to the pawnshop to get money for rent.

Feeling desperate, I wonder if I'd ever be successful.

I saw other people that were no smarter, or more deserving than I was experiencing success.

But I just couldn't crack the code.

It made me even consider going back to the nine to five full-time.

Then something that changed my life forever happened. Literally, the week that I was about to give up, I woke up to a commission notification in my inbox, more than twice what I made per week in my construction job, and enough to catch up on all my bills.

So whether you can relate to my story or you're just miserable with your current situation and tired of watching others live the life of their dreams, this may be what you are looking for.

WHAT YOUR FUTURE LOOKS LIKE IS COMPLETELY IN YOUR HANDS.

Gone are the days where you need to stay in a dead-end job for 10 years for a, maybe 3% raise.

We can and should design the life WE WANT to live.

You can work from anywhere.

You should be able to travel if you want to.

You don't need to put up with unreasonable bosses and ridiculous demands on your schedule and livelihood.

You don't need to go into massive debt to get that college degree that you never ended up using.

You can choose to see your kid's baseball game or dance recital, instead of dealing with a boss that is always telling you "no."

You can build a retirement fund and generational wealth for your family.

It's NOT too late!

My students who dove headfirst into learning, implementing, asking questions, and are committed to changing their future have seen huge changes from this one business model.

You don't need any major tech skills, huge startup costs, or marketing experience to get going.

THIS IS TOTALLY DIFFERENT THAN ANYTHING YOU'VE SEEN OR TRIED.

There's so many gurus screaming about the latest fad gimmicks.

But let me save you a lot of wasted time here.

Shopify, Amazon, pitching lotions, potions, and pills to your Facebook friends for your latest MLM or Bitcoin Ponzi schemes are all A WASTE OF TIME.

Most of those all revolve around selling worthless products for teensy weensy, little commissions, or they require serious skill and experience to be successful.

There's one business model that stood the test of time year after year, and has helped more newbies make money online than anything else.

Are you ready for the formula?

Brace yourself.

I...

It's marketing valuable, high ticket products and services that actually help people.

If you want to maximize your success as fast as possible, the valuable products have to have high enough profit margins.

So that one or two sales per month allow you to create a positive impact for yourself and your family.

With freelance digital marketing, you're finding the best selling, most valuable high ticket product and then marketing it to people already in the market to make a purchase.

They already want to buy. They're ready to buy. You just have to find them (and hint... I'll show you ...)

When my students quit all of the low ticket affiliate nonsense, embarrassing MLM gimmicks, and the teensy weensy e-comm dropshipping games that were more like glorified jobs than real businesses and started selling high ticket high-quality products...

Their problems disappeared.

Just like mine did, and just like yours can.

Want to learn the exact steps I took and teach every day to my students?

Ready to start building your own business, be your own boss, and never answer to anyone ever again?

I'm ready to teach you exactly how to get started with this EXACT business model TODAY... as in RIGHT NOW.
